The Third Industrial Revolution

The pace of change is accelerating
Business imperatives are intertwined
Technology is only part of the solution
These imperatives are driving IT to shift to be an orchestrator

Presenting a huge opportunity for you

- Workplace Transformation
- Become Smart – Sense, Predict, Act
- Data is the new oil
- Re-Imagine the Data Center
- Trust at the heart of your brand
This Fundamentally Changes Software Development

**Yesterday**

- Platform-specific apps
- Costly, custom integration
- Limited channel choice, expensive integration
- Slow development, interdependencies
- Compute resource accessible via proprietary interfaces

**Tomorrow**

- Cross device/platform with insights, interface and business functions
- self service access to business systems
- Low cost entry, boundless scale
- Modular, flexible app architecture
- Abstract secure, open access to infrastructure

**Customer Integration**

**Mobile**

**Mega Markets & Eco System**

**Internal Development**

**Direct Access to Infrastructure**
A pessimist sees the difficulty in every opportunity; an optimist sees the opportunity in every difficulty.

— Winston Churchill
